REGENERATIVE DEVELOPMENT AND DESIGN

Its origins, essence, practice and potential as a meta-discipline
to elevate governance, innovation and planetary health

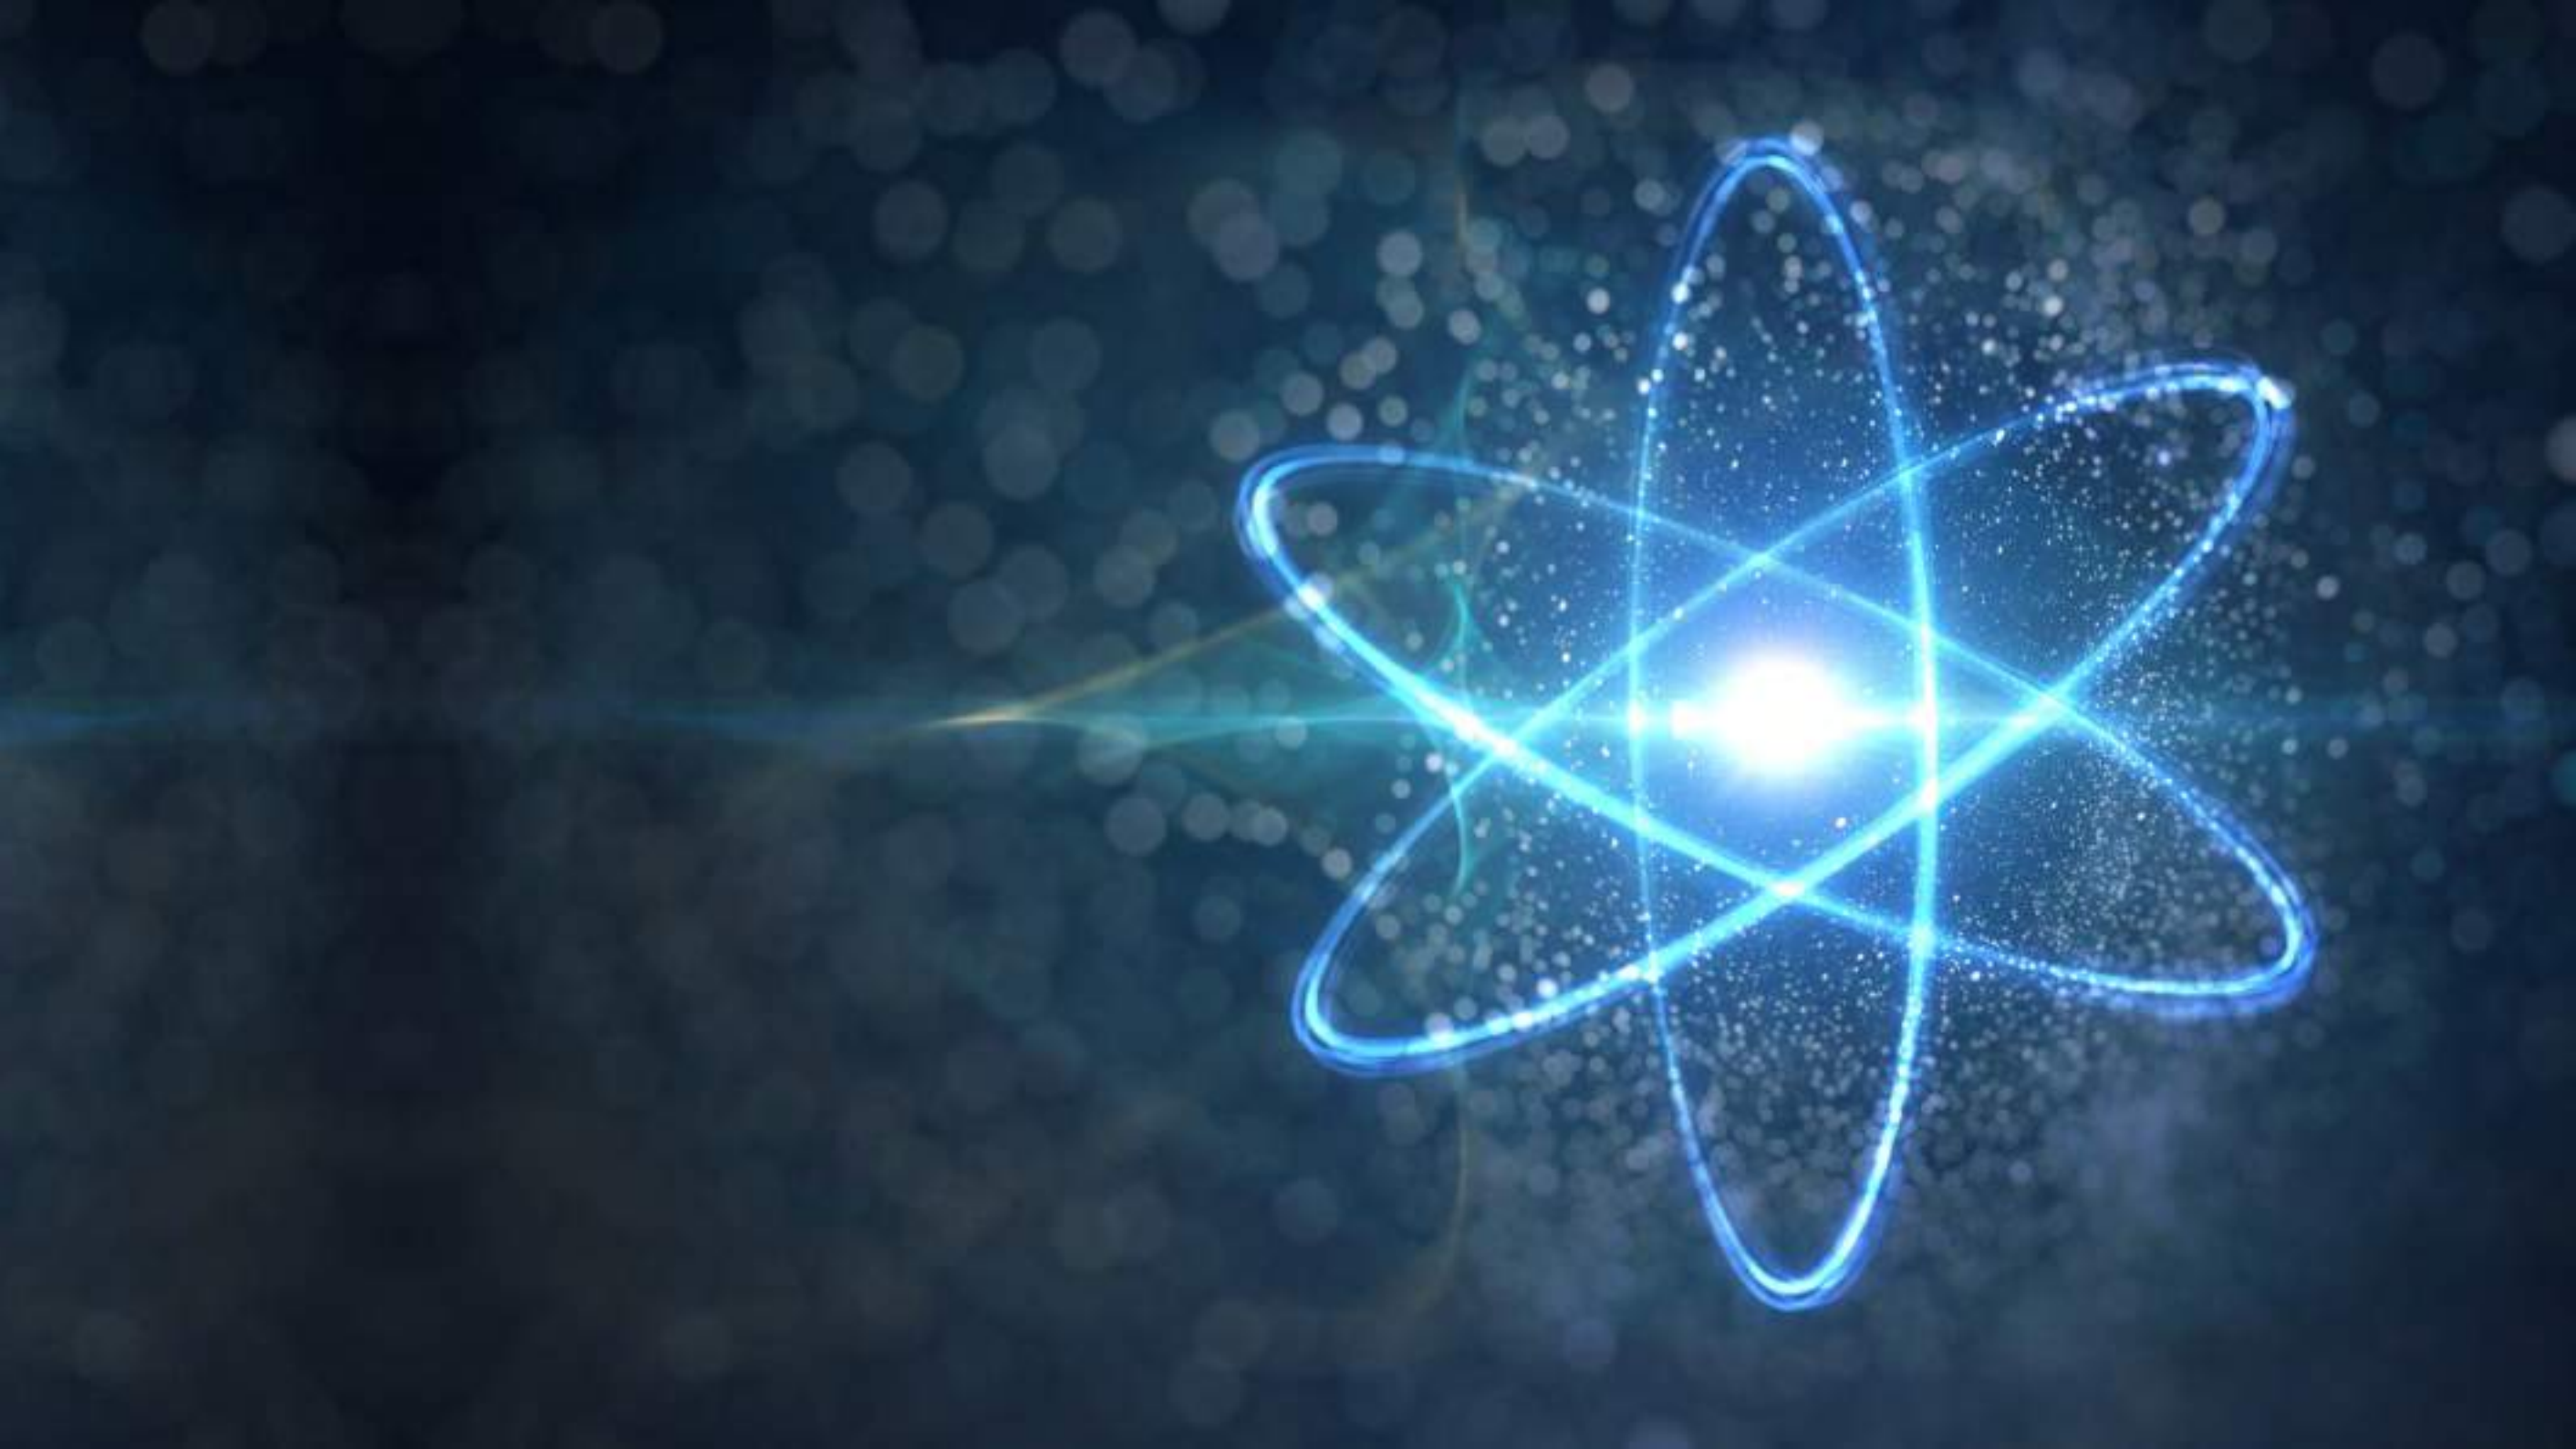

What if
instead of being victims
of the mistakes of our past,
we **become** the **co-creators**
of the best of times?

"...create a new scientific culture that views ourselves both as an expression of nature and as a source of nature's self-understanding."

Frank, Gleiser, & Thompson, 2024

A close-up photograph of a bumblebee on a pink and white flower. The bee is positioned in the center of the frame, facing downwards. The flower has large, overlapping petals in shades of light pink and white. The background is a soft, out-of-focus green, suggesting foliage. The lighting is bright, creating a clear and detailed view of the bee and the flower.
